VALENTIN GOSSE'S EDITORIAL

Founder of CyLimit

In just two years, CyLimit has established itself as the ultimate reference for cycling and collectible card enthusiasts. Inspired by the world of professional cycling, we have created a platform where each card is far more than just a digital asset : it's a direct connection to the riders, the competitions and the greatest feats of the peloton.

CyLimit has become what it is today thanks to you. To our community, for its passion, unwavering dedication, and enthusiasm from day one. To our partner teams, who believed in this bold project and continue to shape an innovative future for cycling.

Together, we have transformed CyLimit into more than just a game : it's a revolution in the way we experience and celebrate cycling. And this is just the beginning.

TESTIMONIALS

VINCENT

CREATOR AND HOST OF THE PODCAST "LE COUP TORDU"

Digital Fantasy Gaming in cycling world.

In 2021, I discovered Sorare and was immediately fascinated by its concept : buying NFTs of football players, lining them up in your team, and earning rewards based on their real-life performances. Right away, an idea crossed my mind : this concept would be even more incredible if adapted to cycling. But at the time, I never imagined such a project could technically come to life.

In fact, I even dedicated a podcast to this idea, imagining what Digital Fantasy Gaming could look like in the world of cycling. And that's when everything accelerated. Right after the podcast aired, Valentin Gosse reached out to tell me that such a project was already in progress and would soon become a reality. Just a few weeks later, Cylimit was launched.

Since then, it has been an incredible journey that has exceeded all my expectations. Cylimit is much more than just a game : you become the manager of your own team, discover riders you barely knew, grow attached to them, follow their progress and their story and highlight them through their real-world performances. You experience cycling in a whole new way—more immersive, more thrilling.

Today, Cylimit is already entering its third season, and one thing is certain : every promise has been kept. Every announcement has been backed by action. Valentin and his team are always listening to the community, open to feedback and criticism, allowing the game to constantly evolve. Nothing is swept under the rug, everything is done with transparency and passion.

And this is just the beginning. Step by step, new managers are joining the adventure, teams are growing stronger and we are witnessing the rise of what could become the greatest success story in Digital Fantasy Gaming for cycling.

Join the adventure, because the time is now !

PTIJUJU007

2024 MANAGER OF THE YEAR

At the beginning of 2023, I had the pleasure of discovering CyLimit while listening to the podcast LeCoupTordu, hosted by Vincent Prevost and his team. It was when Israel Premier Tech joined the game that I finally decided to take the plunge... making a few rookie mistakes along the way. lol

I still remember the pride of winning my first auction while at Roazhon Park : nearly \$20 for the blue 2/300 card of Simon Clarke, 36 years old, just before the Tour Down Under. Sic.

Completely absorbed by the game and impressed by Valentin and his team's dedication to growing this great project, I believed in it and built a well-thought-out and solid gallery : starting with L2 before aiming higher. The purchase of the yellow card of the GOAT, Tom Van Asbroeck, for around \$20 sealed my motivation and commitment. This was followed by an exciting 2023 season and an unforgettable 2024 season, filled with many victories and rewards.

A huge thank you to Cylimetrics for these distinctions, especially for the Olympic tickets, which I was delighted to offer to Vincent. And an even bigger THANK YOU to Valentin & Vincent for introducing me to this wonderful Digital Fantasy Gaming experience - especially as someone who has been passionate about cycling for several years.

Long live CyLimit !

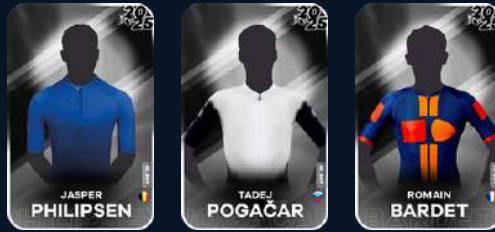

PTIJUJU007'S TIPS

Throughout this guide, find Ptijuju007's tips to avoid mistakes and perfect your strategy !

CARDS

On Cylimit, collect two types of cards to build your dream team :

"WHITE" CARDS

White-colored cards, completely free and issued in unlimited quantities.

COLLECTION

50 cards are given to each manager at the start of the season or upon registration.
Freely exchange them based on your needs, with a limit of one card every 48 hours.

USAGE

Line up your white cards in these competitions :

"NFT" CARDS

Premium cards in **blue**, **pink** or **yellow**, issued in limited quantities.
Each card is unique, numbered, and "minted" on the blockchain to ensure its authenticity, traceability, and exclusive ownership.

COLLECTION

Earn them as rewards in competitions.
Buy them on the primary market (auctions) or the secondary market (resale).

USAGE

Line up your blue, pink, or yellow cards in these competitions :

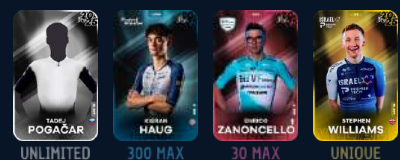

The color of the card indicates its rarity level :

Blue cards : up to 300 editions per season

Pink cards : up to 30 editions per season

Yellow cards : only 1 edition per season

PRIMARY MARKET (AUCTIONS)

Every day, the Cylimit team offers new cards on the primary market.

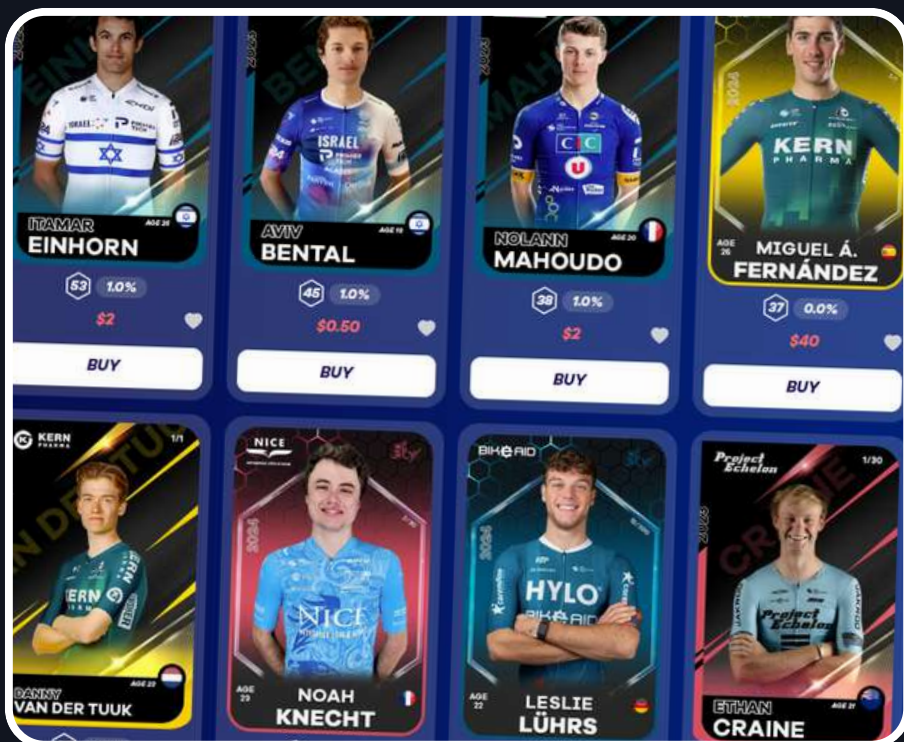

These cards are put up for auction for a limited time.

At the end of the designated period, the card goes to the manager with the highest bid.

PTUJU007'S TIPS

Before placing a bid on the primary market, check if the rider is already for sale on the secondary market at a lower price

SECONDARY MARKET (RESALE)

At any time, a manager can put up for sale a card they own.

The seller freely sets the card's price, which then appears on the secondary market.

Any interested manager can purchase it instantly by paying the listed price.

GAME RULES

As the manager of a professional cycling team, your mission is to build the best possible team using your collection of rider cards.

Compete in all the major races of the global circuit and aim for victory by winning thrilling competitions.

PTUUUU007'S TIPS

Study the race profiles (flat, hills, mountains...) and their similarities/differences with previous editions

ALL RACES AT YOUR FINGERTIPS

All professional races from the UCI World Circuit are playable, including categories .UWT, .Pro, .1, .2, .1U, .2U, and .NCup.

Competitions are organized around the cycling calendar :

- **One-day races** are grouped into **MultiRace** (MR)
- **Stage races** and **Grand Tours** are grouped into **MultiTour** (MT)

YOUR GOAL : BUILD THE PERFECT TEAM

For each competition, select the 5 best riders from your cards to create a formidable team.

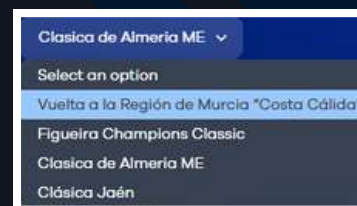

Tip : In leagues 3 and 4, you have the option to use "trainees" to complete your team. These trainees allow you to temporarily add any rider from the global circuit, even if they are not in your collection. Beware ! Using a trainee results in a 25% penalty on that rider's scoring.

RACE SELECTION : MAXIMIZE YOUR STRATEGY !

When assembling your team, assign each rider to the specific race they will compete in. Their score will depend on both the competition rules and their actual performance in that race. Stay alert and optimize your choices to maximize your chances of victory!

Maximum flexibility :

- You can adjust your team as many times as needed until the start of each selected race.
- Even if other races in the same competition have already begun, you can still modify your riders as long as their specific race hasn't started yet.

PTUUJ007'S TIPS

When a race starts much later than the others, select a rider for that race and then go back to update your selection before the start

Stay reactive and optimize your choices to maximize your chances of victory!

LEAGUES : DOMINATE THE COMPETITIONS !

In each competition, you can enter a team in one of the five available leagues, each with specific card selection and scoring rules :

Selection and scoring : Role Mode

Cards : 3 yellow cards (+20% bonus) + 2 pink cards (no bonus)

Selection and scoring : Role Mode

Cards : 3 pink cards (+20% bonus) + 2 blue cards (no bonus)

Cards : 1 to 5 blue cards (no bonus)

+ 0 to 4 white cards (no bonus) or trainees (-25% penalty)

Selection and scoring : Cap Mode

Cards : 5 white cards (no bonus) or trainees (-25% penalty)

SCORING

CAP MODE

RIDER SELECTION

Each card in your collection has a "Cap" value, which represents the average of the rider's last 15 scores.

For each competition, a Cap limit is set (usually 250 points).

The total Cap of your 5 selected cards must not exceed this limit, forcing you to balance your team between star riders and promising outsiders.

Strategy : Find the best compromise between performance and Cap management to maximize your points !

SCORING

The 5 selected cards then follow the same scoring rules.

The main scoring criteria in this game mode are as follows :

STAGE RANKING

BEST RIDER RANKING IN THE TEAM
KILOMETERS IN BREAKAWAY

GENERAL CLASSIFICATION STAGE RANKINGS

POINTS CLASSIFICATION / MOUNTAIN CLASSIFICATION
BEST RIDER RANKING IN THE TEAM
TEAM CLASSIFICATION
KILOMETERS IN BREAKAWAY

CAPTAIN BONUS (+25%)
RARITY BONUS (+20% DEPENDING ON THE LEAGUE)
FIRST OWNER BONUS (+1%)
CURRENT SEASON EDITION BONUS (+1%)
XP BONUS (UP TO +10%)

PTUJJU007'S TIPS

Don't forget to allocate your XP points : they can make a difference !

ROLE MODE

RIDER SELECTION

No Cap restriction here, but each rider must be assigned a specific role.

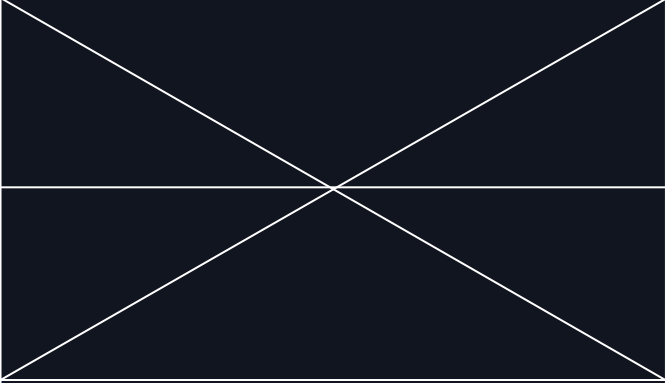

The distribution of roles and the quality of your strategy will be crucial in optimizing your scoring.

Strategy : Make the most of each rider's strengths by assigning them the most suitable roles based on their performance and the race profile.

SCORING

The scoring of each card is then calculated based on the role assigned to it.

The main scoring criteria in this game mode are as follows :

		
 LEADER	STAGE RANKINGS BONUS FOR BEST RIDER IN THE TEAM BEST RIDER RANKING IN THE TEAM KILOMETERS IN BREAKAWAY	GENERAL CLASSIFICATION BONUS IF BEST RIDER IN THE TEAM

CLIMB THE RANKINGS

At the end of each race, scores are updated, and the total performance of your riders is calculated.

Once all races in a competition are completed, your overall score is compared to that of other managers in your league. Your final ranking position determines whether you win rewards.

WIN EXCLUSIVE REWARDS

Rewards are set at the start of each competition and vary based on several factors: race prestige, number of races included, number of participating teams, number of Cylimit riders, market trends, and more...

Rewards may include : USDC earnings directly transferred to your wallet, new cards to expand your collection, XP points to freely assign to your cards and boost their XP bonus, physical rewards and more...

48 hours after the final race, rankings are finalized and rewards are distributed to the top managers in each league.

The higher your ranking, the greater the value of your rewards (USDC, card rarity, XP points, etc.).

LEAGUE 3 JACKPOT : AN EXTRA CHANCE TO WIN !

In addition to standard rewards, **League 3 Role** offers a unique opportunity to win a USDC jackpot, shared among the top managers !

At the start of each competition, a jackpot amount and a target score (usually 280 points) are announced. These values depend on various factors: race prestige, number of races included, number of participating teams, number of riders, market trends, and more...

At the end of the competition, all managers whose teams reach or exceed the target score share the jackpot equally !

PTUUUU007'S TIPS

Major events, especially Grand Tours, offer big jackpots that you should prioritize!

On rider pages, you can access a detailed history of their results, precise scoring, transaction history, personal data, and a list of circulating cards.

Competition pages, on the other hand, provide a complete overview of all rankings, results, rewards, stage profiles, as well as race dates and times.
